

This is a unique opportunity to acknowledge publicly the support Clear Channel has given to our organization and their importance in the community.

The cArver Cultural Center has been involved in a capital campaign for some time. In addition to their corporate contribution, Clear Channel officials approached us to ask if there was a way they could provide additional support for the campaign. They have given us substantial no cost air time on both radio and television. This is over and above the regular psa's provided to promote our events.

It is this kind of assertive community and social responsibility that has made the Clear Channel media outlets in this community such a valuable part of our community.

Thank you.
